EQUIFORCE SOLUTIONS INC.

CAREER OPPORTUNITY | BUSINESS DEVELOPMENT

Performance Measurement - GIPS Composite Management - AI-Powered Reporting

Business Development Consultant (Commission-Based)

LOCATION: Remote (U.S.-based), with occasional travel **TYPE:** Independent contractor, commission-based

TARGET MARKET: Small and mid-sized asset managers & RIAs **APPLY:** contact@equiforce.ai

ABOUT EQUIFORCE

EquiForce helps investment management firms with purpose-built technology for performance measurement, GIPS composite management, and AI-powered investment reporting. We're more than a software provider. Our team brings over 150 years of combined investment operations expertise, and we work as a strategic partner and consultant to our clients. By integrating AI into reporting, we help firms operate with greater accuracy, confidence, and a competitive edge.

THE ROLE

We're looking for a proactive, relationship-driven business development professional to grow EquiForce's presence among small and mid-sized asset managers and RIA firms. You'll own the sales cycle from first conversation to signed client: finding the right firms, understanding performance and composite challenges, and showing how EquiForce solves them. This is a primarily remote role, with travel for prospect meetings, client visits, and industry events.

WHAT YOU'LL DO

- Identify and engage small and mid-sized asset managers and RIAs through outbound outreach, referrals, and your network
- Lead consultative discovery conversations to understand each firm's performance, GIPS, and reporting needs
- Present EquiForce's solutions, demos, and proposals to senior decision-makers (CCOs, COOs, CFOs, firm principals)
- Manage your pipeline from first contact through close, with accurate forecasting
- Represent EquiForce at industry conferences and events, and share market insights to inform product positioning

WHAT WE'RE LOOKING FOR

Required:

- 5+ years in B2B sales, business development, or consultative selling in financial services, fintech, data, or SaaS
- A proven record of building your own pipeline and winning new business; excellent executive presentation skills
- Strong self-direction and organization; ability to excel without day-to-day oversight

Preferred:

- Familiarity with performance measurement, attribution, GIPS composite reporting, or investment operations workflows
- Existing network among asset managers, RIAs, consultants, or related service providers; AI/data sales experience

COMPENSATION & GROWTH

- Commission on new client acquisitions and performance milestones; incentive bonuses for referrals & retention
- Growth path: as EquiForce expands, this role may transition into a salaried position with potential equity

HOW TO APPLY

Email your resume to contact@equiforce.ai. Please include a short note describing your sales experience and any existing relationships in the asset management space. Applicants must be legally authorized to work in the United States without the need for employer sponsorship, now or in the future.

Confidential & Proprietary. Equal Opportunity Employer.
